Teachology:101
where technology meets effective teaching

Lesson Cover Sheet

Fill out this cover sheet to reflect on your original lesson **before** you begin the process of redesigning. It may be helpful to refer to these notes during mentorship sessions.

1. What are the content or curricular goals you have for this lesson?

2. What do you want your students to take away from this lesson beyond those curricular goals?

3. What is the current scope of your lesson (audience, relevance to authentic or real world tasks)?

4. What is the role of students in this lesson?

   - How are they engaging? What are they creating (including products or non-tangible ideas/knowledge)?

5. *Does your lesson currently incorporate technology?

   - In what ways does the technology you have chosen enhance the purpose or goals of the lesson?

   - In what ways does the technology you have chosen constrain the purpose or goals of the lesson?
